List of publications – Jan Korbel

articles

P. Jizba and J. Korbel. Multifractal diffusion entropy analysis: Optimal bin width of probability histograms. *Physica A: Statistical Mechanics and its Applications*, **413**, 2014, 438-458.

P. Jizba and J. Korbel. Techniques for multifractal spectrum estimation in financial time series. *International Journal of Design & Nature and Ecodynamics*, **10(3)**, 2015, 261-266.

P. Jizba and J. Korbel. On q-non-extensive statistics with non-Tsallisian entropy. *Physica A: Statistical Mechanics and its Applications*, **444**, 2016, 808-827.

proceedings

P. Jizba and J. Korbel. Methods and techniques for multifractal spectrum estimation in financial time series. In *Proceedings ASMDA* 2013, 2014.

P. Jizba and J. Korbel. Modeling financial time series: multifractal cascades and Rényi entropy. *In ISCS 2013: Interdisciplinary Symposium on Complex Systems:* 227-236. Springer Berlin Heidelberg, 2014.

P. Jizba and J. Korbel. Applications of multifractal diffusion entropy analysis to daily and intraday financial time series. In *ISCS 2014: Interdisciplinary Symposium on Complex Systems*: 333-342. Springer International Publishing, 2015.

preprints and publications in submission process

H. Kleinert and J. Korbel. Option pricing beyond black-scholes based on double-fractional diffusion. Submitted to Physica A, 2015. (<u>http://arxiv.org/abs/1503.05655</u>)

R. Rychtáriková, J. Korbel, D. Štys, et al. Point information gain, point information gain entropy and point information gain entropy density as measures of semantic and syntactic information of multidimensional discrete phenomena. Submitted to IEEE Tras. Inf. Theory, 2015. (http://arxiv.org/abs/1501.02891).

theses

J. Korbel. *Applications of Multifractals in Financial Markets*. Master thesis. Faculty of Nuclear Sciences and Physical Engineering, Czech Technical University in Prague, 2012.

J. Korbel. *Applications of Generalized Statistics in Econophysics*. Bachelor thesis. Faculty of Nuclear Sciences and Physical Engineering, Czech Technical University in Prague, **2010**
